Program Guidelines:

Advisor's Advantage is an annual benefit program provided to FIG producers rewarding multiple levels of production. To participate in the Advisor's Advantage Program, the agent must be actively contracted with FIG. The enrollment form must be returned to participate in the program. Production tracking begins on the date the enrollment form is returned. Eligibility for the benefits at each level (Silver, Gold, Platinum, and Diamond Club) is based on the agent having met the specified paid premium amounts for each club level. Reimbursements and rewards will be distributed to the agent only after the production amount is paid. This program is for the writing agent at TOP GA contracts only. **Agents participating in the Mentor Program, VA program, The Practice, and/or CPR are not eligible for FIG value added incentive marketing programs or reimbursements. All monetary benefits and services of the Advisor's Advantage programs are subject to taxes. You will receive a 1099 form at the end of the calendar year from FIG. **This program may exclude any business with Annexus Group, Aviva LSA Product and Midland. Exclusions could be changed through out the year.**

* Based on CPCs earned during current year.
