Program Eligibility Guidelines

To participate in The Fast Start Producer Program, you must be a newly contracted agent with FIG. The Fast Start Producer Program is an introductory incentive program for newly contracted agents for their first 6 months with FIG. After the first 6 months, agent production levels count toward Advisor's Advantage. The enrollment form must be returned to participate in the program. Production tracking begins on the date the enrollment form is returned. Eligibility for the benefits at each level (Bronze, Silver, Gold and Platinum) is based on the specified premium amounts and business submitted within the specified 120 day timeframe from the date of the enrollment form is returned. Reimbursements and rewards will be distributed to the agent only after the policy is paid. This program is for the writing agent at TOP GA contracts only. **Agents participating in the Mentor Program are not eligible for FIG value added incentive marketing programs or reimbursements. All monetary benefits and services of the Fast Start / Advisor's Advantage programs are subject to taxes. You will receive a 1099 form at the end of the calendar year from FIG. **This program may exclude any business with Annexus Group and Midland.**
